DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1-7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which Applicant regards as the invention. The following apply. Any claim not specifically rejected is rejected if it is dependent on a rejected claim and shares the same indefiniteness.

(a) In step a) of claims 1, 3 and 6, it is unclear when Applicant states "in a molar ratio between about 1/1 and about 6/1" in claim 1 and "3/1" in claims 3 and 6, whether the numerator or the denominator applies to the piperazine or the N-haloacetyl-2,6-xyldine reactant and vice versa. Clarification is required.

Art Unit: 1624

(b) Also in step a) of claims 1 and 3, it is unclear when Applicant states “an about equimolar amount of HCl”, what substance Applicant intends to have an equimolar amount to the HCl. Does Applicant intend the “aqueous solvent” to have this equimolar amount to the HCl? This rejection may be overcome by amendment such as, “separating the solid formed by filtration,” or similar language.

(c) In steps c) and d) of claim 1, “filtrate” lacks antecedent basis because there is no filtering step in either steps a) or b). Correction is required.

(d) Also in step d) of claim 1, the relative claim language “small” is indefinite because a reader would not know by this terminology the metes and bounds of the desired miscibility of the solvent.

(e) Claim 7 is rejected due to indefiniteness because Examiner has no idea what the invention is which Applicant is claiming. Examiner recommends cancellation.
